

Lesson: Secondary Color Monsters

Grade: 1

Duration: 2 class periods (50 minutes)

Objective:

- Students will identify the 3 secondary colors
- Students will know how to mix the primary colors to create secondary colors

Activities:

Day 1:

1. Students will watch a video about mixing the primary colors
2. Students will pick two primary colors and receive paint in those colors
3. Using a paintbrush, students will mix their primary colors to create a single secondary color.
4. Students will paint a single piece of paper with their secondary color.
5. Papers will be put on the drying rack to dry.

Day 2:

1. Students will cut out their monster's body shape from their dried secondary color paper.
2. Students will use scraps of black and white paper to create eyes, mouth, and other details for their monster.
3. Students will glue on their details and put papers on the drying rack to dry.
4. Students will review color mixing
